Technical Committee Discussion Paper

Name of party submitting issue for discussion (optional): EFAC

Statement of the issue:

EN ISO/IEC 17021-2006: 6.2 Committee for safeguarding impartiality

DIN EN ISO/IEC 17021-1:2015: 4 Principles

EN ISO/IEC 17021-2006: 6.2 公平性委員会

DIN EN ISO/IEC 17021-1:2015: 4つの原則

Discussion:

In EN ISO/IEC 17021-2006 a Committee for safeguarding impartiality was required. Since DIN EN ISO 17021:2011 is no more Committee for safeguarding impartiality requested. See Changes(f) 6.2 "impartiality committee" has been deleted and the tasks are included in the newly added subsection 4.8 on the risk based approach;

The DAkkS (Deutsche Akkreditierungsstelle) required furthermore a committee for impartiality with representatives for each accredited standard in the committee.

Approached to ISO 17021:2011 and ISO 17021:2015 the conformity assessment body shall establish a process to ensure compliance with the principles named in ISO 17021:2015 No. 4. Acc. To 5.2.3, a consultation with appropriate interested parties is requested. Examples of Interested parties are named in note 2. This are definitely not representatives of accredited standards

ISO 17021:2011 では公平性委員会は要求事項とされず、その活動は新たな 4.8 項においてリスクベースアプローチで行うこととなっている。いまだに各認定スキームに対して公平性委員会の設置を求めている。

Requested action by the IAF TC:

Since no more Committee is requested in 17021:2015, there can't be a requirement for a representative for each standard.

We ask for confirmation that the conformity assessment body can decide on its own responsibility with which persons the non-required committee is staffed.

各認定スキームに対して公平性委員会の設置を求めていることを確認したい。

Consensus of the IAF TC (also to be documented in the meeting summary):

The TC confirms that the standard is clear; the committee (for safeguarding impartiality) is no longer required in ISO/IEC 17021-1

規格は明確であり、もはや ISO/IEC 17021-1 では（公平性）委員会は要求されていないことを、TC は確認した。

Per ISO/IEC 17021-1, the CB determines what interested parties are required and how they will consult with them (e.g. through committee or another method).

ISO/IEC 17021-1 に従って、CB はどのような利害関係者が必要とされ、彼らがどのように彼らと協議するかを決定する（例：委員会または他の方法を通して）。

The CB must be able to demonstrate

- that the interested parties identified are appropriate and
- that the consultation with the interested parties is effective.

CB は、以下を証明しなければならない。

- 特定された利害関係者は適切であること
- 利害関係者との協議は効果的であること

Some industry requirements may require additional requirements above ISO/IEC 17021-1.

産業セクターの要求事項によっては、ISO/IEC 17021-1 に追加要件が求められる場合がある。

Further WG Discussion

更なる WG 議論

While this was straight forward to confirm; it was clear that this was another situation of the CAB's concern not being provided to the AB for review/decision.

これは単刀直入に確認すべきことであるが、これは AB にレビュー/決定されないために CAB が抱える別の課題である。
